NOARK Electric

Electrical Equipment Manufacturer for Distribution and Control

NOARK Electric is a global manufacturer of electrical distribution and control products that address a variety of customer needs, ranging from components to intelligent system solutions. Our global product lines include: circuit breakers, contactors, relays and intelligent control. Based in Shanghai, China, NOARK Electric was established in 2007 and covers the globe with regional headquarters in North America, Latin America, Europe and Middle East/Africa.

Globally, NOARK Electric serves the industrial, commercial, utility and residential markets. In North America, NOARK Electric focuses primarily on industrial OEMs, users and associated channel partners. Our motto is "Excellent Product...Exceptional Value," which NOARK Electric delivers to our customer by maintaining local inventory, providing local sales, customer service and support and manufacturing quality, aggressively priced products backed by a five-year limited warranty.

Quality Product

- Backed by a five-year limited warranty*

Exceptional Value

- Reduce the cost of products
- Improve profitability
- Increase margins

Local Support and Local Inventory

- Superb customer service
- Knowledgeable technical support
- Dedicated sales force
- Well-stocked inventory
- North American headquarters

*Contact NOARK Electric for complete details.

NOARK Electric

International Headquarter Locations

Global reach. Local resources.

The best of both worlds come together when customers count on NOARK as their electrical product manufacturer.

MINIATURE CIRCUIT BREAKERS

UL 489

Miniature Circuit Breakers

UL 489 Product Overview

Features

- Complete range of UL 489 listed miniature circuit breakers up to a 63 A current rating
- Breakers mount on standard 35 mm DIN rail - B1NQ also provides a flush and surface mount options with additional mounting clips
- Standard ratings of 10 kA at 480Y/277 Vac and 10 kA at 125 Vdc
- Suitable for branch circuit device protection
- Trip-free design — breaker cannot be defeated by holding the handle in the ON position
- Captive screws cannot be lost
- For use in applications for which UL 1077 or CSA C22.2 No.235 are also allowed
- Field installable shunt trip and auxiliary switch subsequent mounting
- Available with provisions for ring tongue terminals
- Module width of only 0.71 in (18 mm) per pole
- Contact position indicator (red/green)
- Possibility for locking the toggle in ON or OFF position

A

Typical Applications

- Branch Circuit Protection
 - ✓ Convenience receptacle circuits (internal/external)
 - ✓ Motor control circuits
 - ✓ Load circuits leaving the equipment (external)
 - ✓ HVACR equipment: heating, ventilation, air conditioning, refrigeration (internal/external)
 - ✓ PLC I/O points
 - ✓ Power supplies
 - ✓ Control instrumentation
 - ✓ Relays
 - ✓ UPS
 - ✓ Power conditioners

Miniature Circuit Breakers

UL 489 National and International Standards

Certifications

UL 489 File Number E355392 / CSA C22.2 No. 5-16 / IEC 60947-2

• Certified for Canada according to Canadian Standards Association CSA C22.2 No. 5-16 standard for branch circuit protection. • UL 489 file number E355392 standard for connection terminals which allows the user to apply field wiring directly to the breaker. • UL 486 standard for connection terminals which allows the user to apply field wiring directly to the breaker. • IEC 60947-2 standard for industrial applications of circuit protection.	
---	---

RoHS

• These devices are RoHS compliant.	
---	--

Breakers have UL 486 rated connectors which means the breakers can be wired directly to the load without the need for terminal strips.

Miniature Circuit Breakers

UL 489 Product Selection Guide

Label

These branch circuit breakers are available in two terminal configurations: standard box terminals that accept multiple conductors and ring-tongue terminals. All breakers mount on standard 35 mm DIN rail, while the B1NQ also has flush and surface mounting options with the use of additional mounting clips. Bus connectors and feeder terminal facilitate mounting and wiring of multiple miniature circuit breaker arrays in control panel assemblies. Breakers can also be reverse feed if needed.

SUPPLEMENTARY PROTECTORS

UL 1077

Supplementary Protectors

UL 1077 Product Overview

Features

- UL 1077 recognized miniature circuit breakers up to a 63 A current rating
- Breakers mount on standard 35 mm DIN rail
- Standard ratings of 5 kA at 480Y/277 Vac
- Suitable for supplementary protection
- Thermal-magnetic over current protection – three levels of short-circuit protection, categorized by B, C and D curves
- Trip-free design – breaker cannot be defeated by holding the handle in the ON position
- Captive screws cannot be lost
- Fulfill UL 1077, IEC 60947-2 standard
- Field-installable shunt trip and auxiliary switch subsequent mounting
- Module width of only 0.71 in (18 mm) per pole
- Contact position indicator (red/green)
- Possibility for locking the toggle in ON or OFF position

Typical Application

- Supplementary Protection
 - ✓ Control circuits
 - ✓ Lighting
 - ✓ Business equipment
 - ✓ Appliances

Supplementary Protectors

UL 1077 National and International Standards

Certifications

UL 1077 No. E355391 / CSA C22.2 No.235 / IEC 60947-2

- Supplementary Protectors are UL Recognized for use in the United States in accordance with NFPA® 70 (NEC). - The devices comply with UL 1077 No. E355391 and certified for Canada according to CSA 22.2 No. 235, meeting the requirements for supplementary protectors. - These devices are for international and domestic use, and also comply with IEC 60947-2 and are CE marked.	  
---	---

RoHS

These devices are RoHS compliant.

Supplementary Protectors

UL 1077 Product Selection Guide

Label

These supplementary protectors are available in two terminal configurations: standard box terminals that accept multiple conductors and ring-tongue terminals. All breakers mount on standard 35 mm DIN rail. Bus connectors and feeder terminal facilitate mounting and wiring of multiple miniature circuit breaker arrays in control panel assemblies. Breakers can also be reverse feed.

SUPPLEMENTARY PROTECTORS

UL 1077

Supplementary Protectors

UL 1077 Product Overview

Features

- UL 1077 recognized miniature circuit breakers from 80 to 125 A current rating
- Breakers mount on standard 35 mm DIN rail
- Standard ratings of 5 kA at 480Y/277 Vac
- Suitable for supplementary protection
- Thermal-magnetic over current protection – short-circuit protection 8~12 In curve
- Trip-free design – breaker cannot be defeated by holding the handle in the ON position
- Captive screws cannot be lost
- Fulfill UL 1077, IEC 60947-2 standard
- Module width of 1.06 in (27 mm) per pole
- Contact position indicator (red/green)

C

Typical Application

- Supplementary Protection
 - ✓ Control circuits
 - ✓ Lighting
 - ✓ Business equipment
 - ✓ Appliances

Supplementary Protectors

UL 1077 National and International Standards

Certifications

UL 1077 No. E355391 / IEC 60947-2

- Supplementary Protectors are UL Recognized for use in the United States in accordance with NFPA® 70 (NEC). - The devices comply with UL 1077 No. E355391 - These devices are for international and domestic use, and also comply with IEC 60947-2 and are CE marked. - B1E 80~125A series has SAA certificate.	  
--	---

RoHS

These devices are RoHS compliant.	
---	---

Supplementary Protectors

UL 1077 Product Selection Guide

Label

These supplementary protectors are equipped with: standard box terminals that accept multiple conductors. All breakers mount on standard 35 mm DIN rail. Breakers can also be reverse feed.
